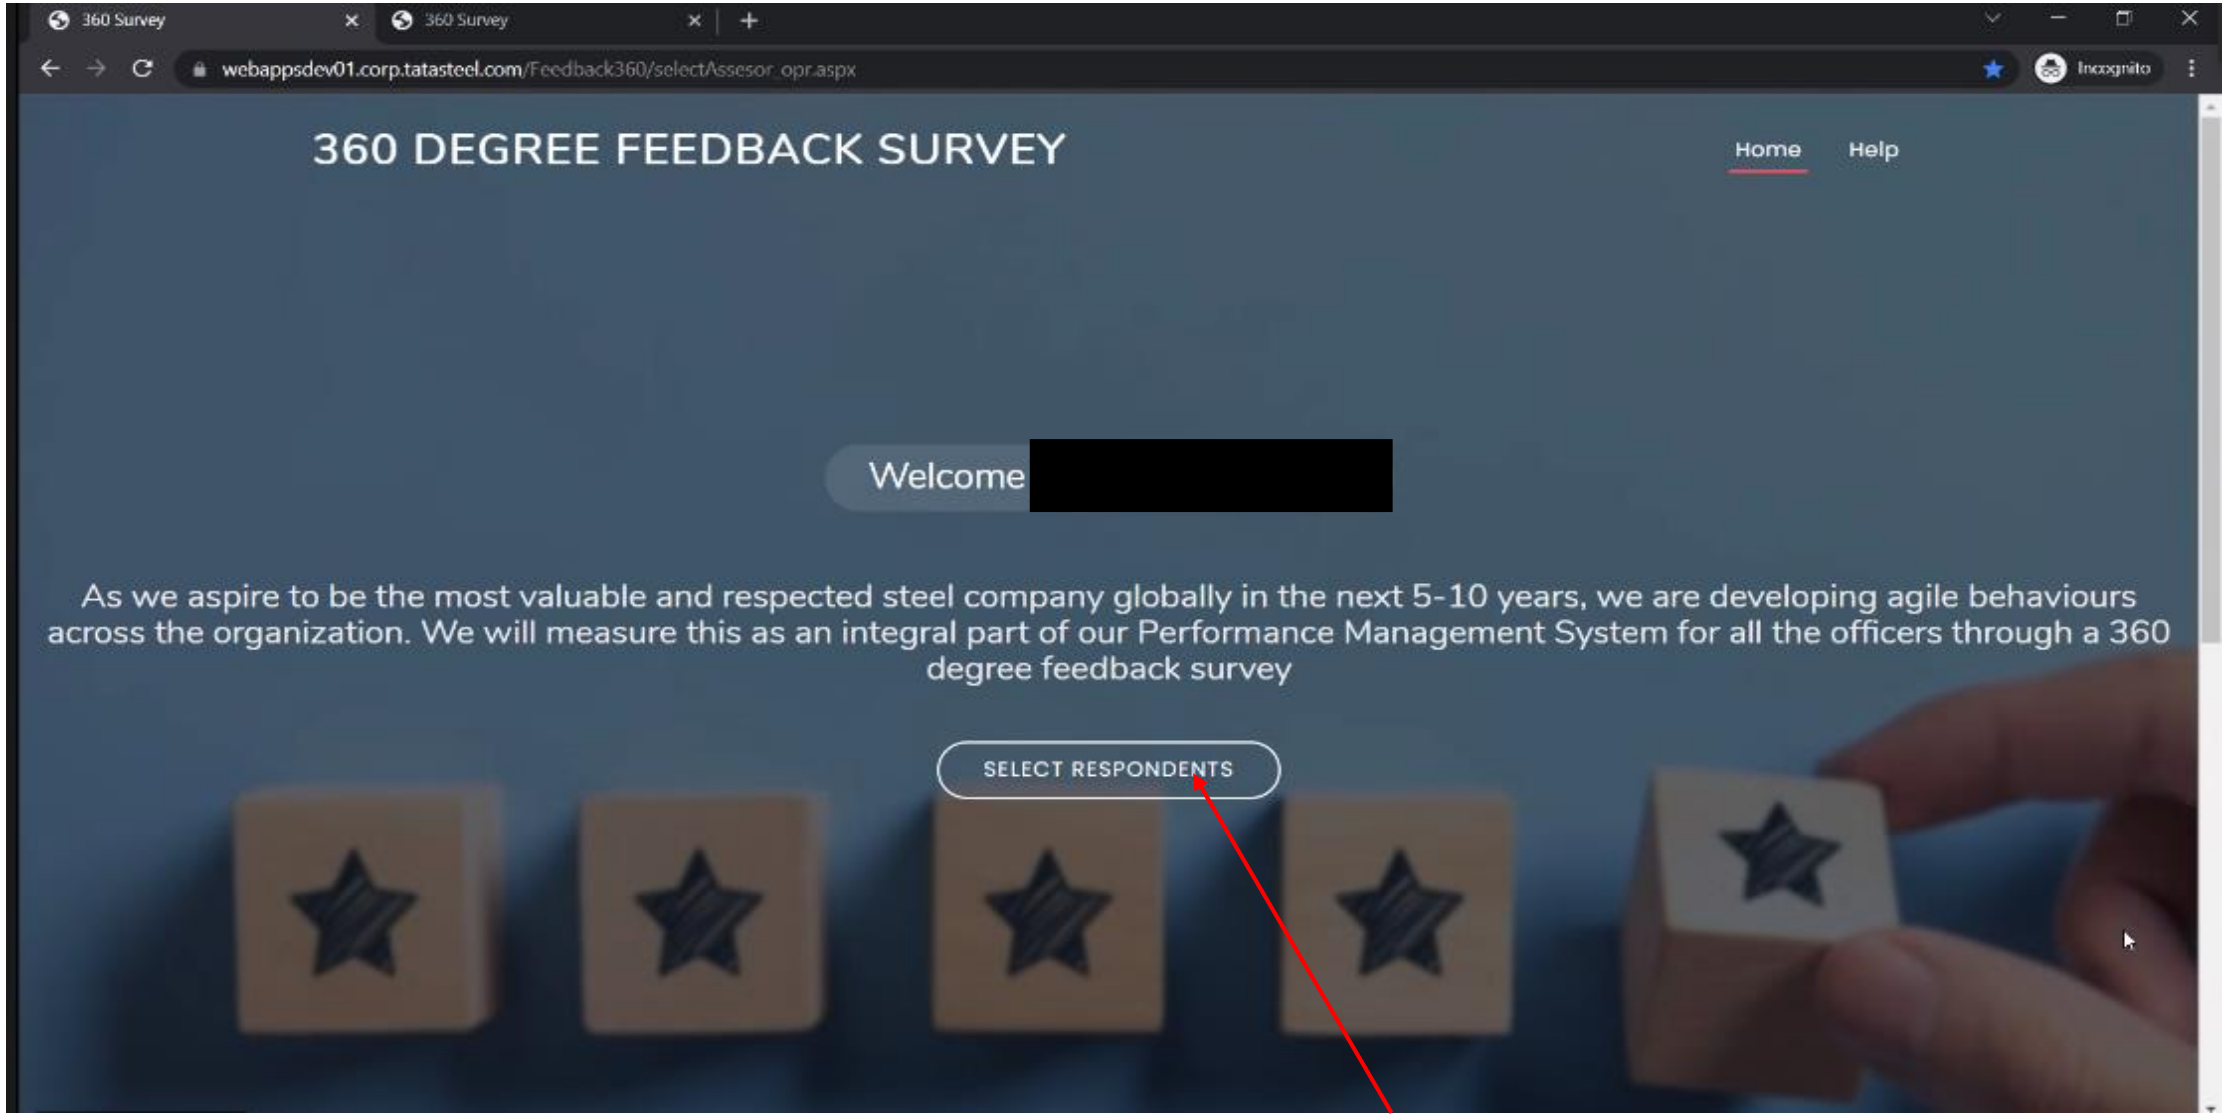
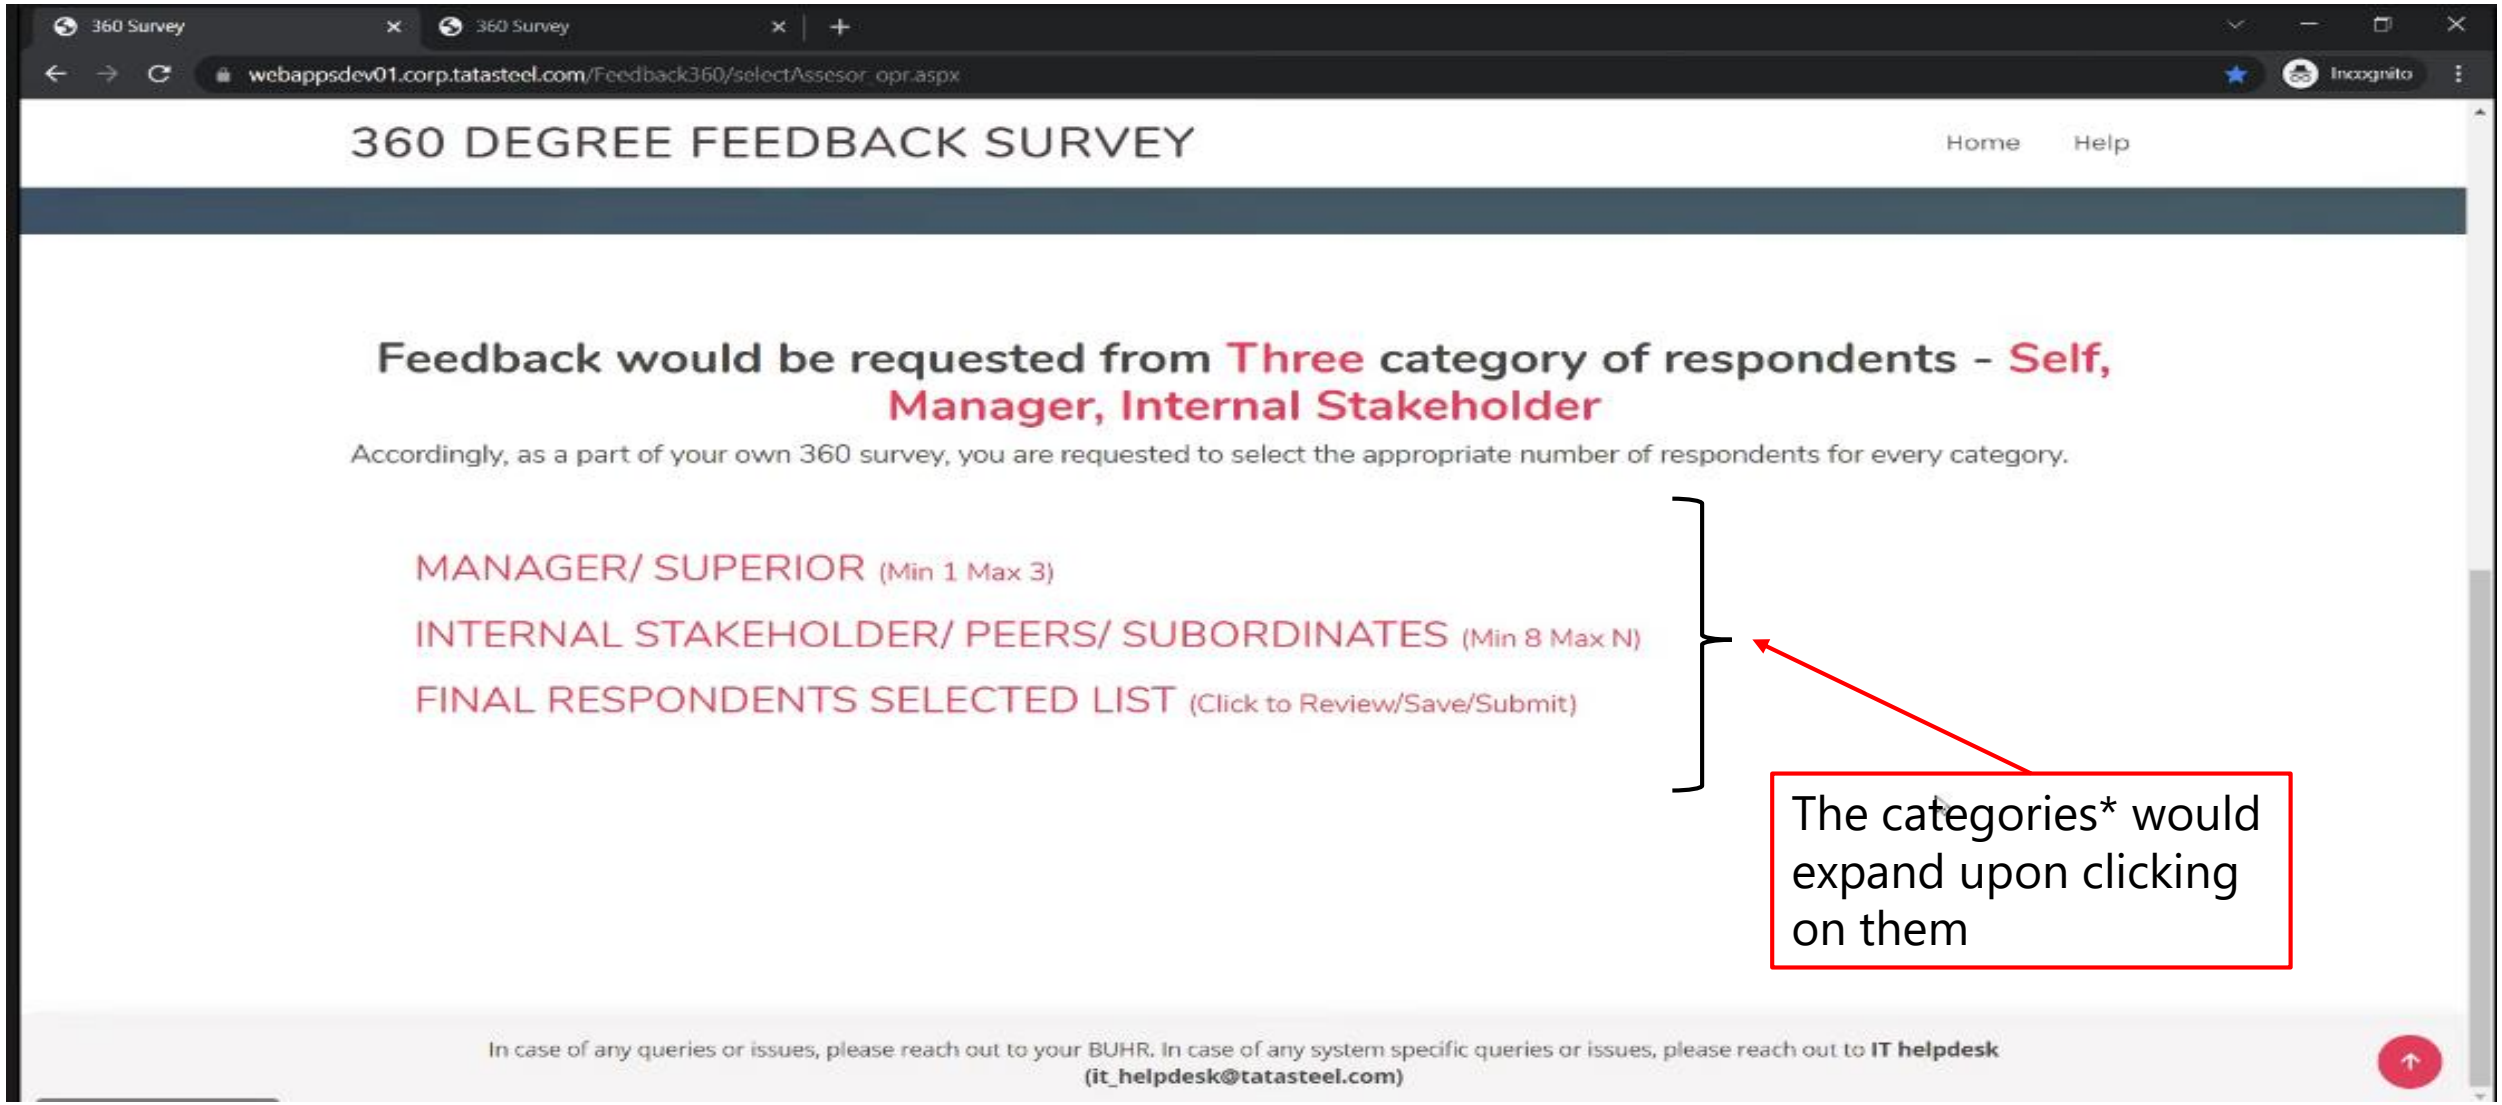
Navigation Handbook on 360 Degree Feedback – ***Selection of Respondents***

Upon clicking the link provided in the mail, the user will be directed to the following page

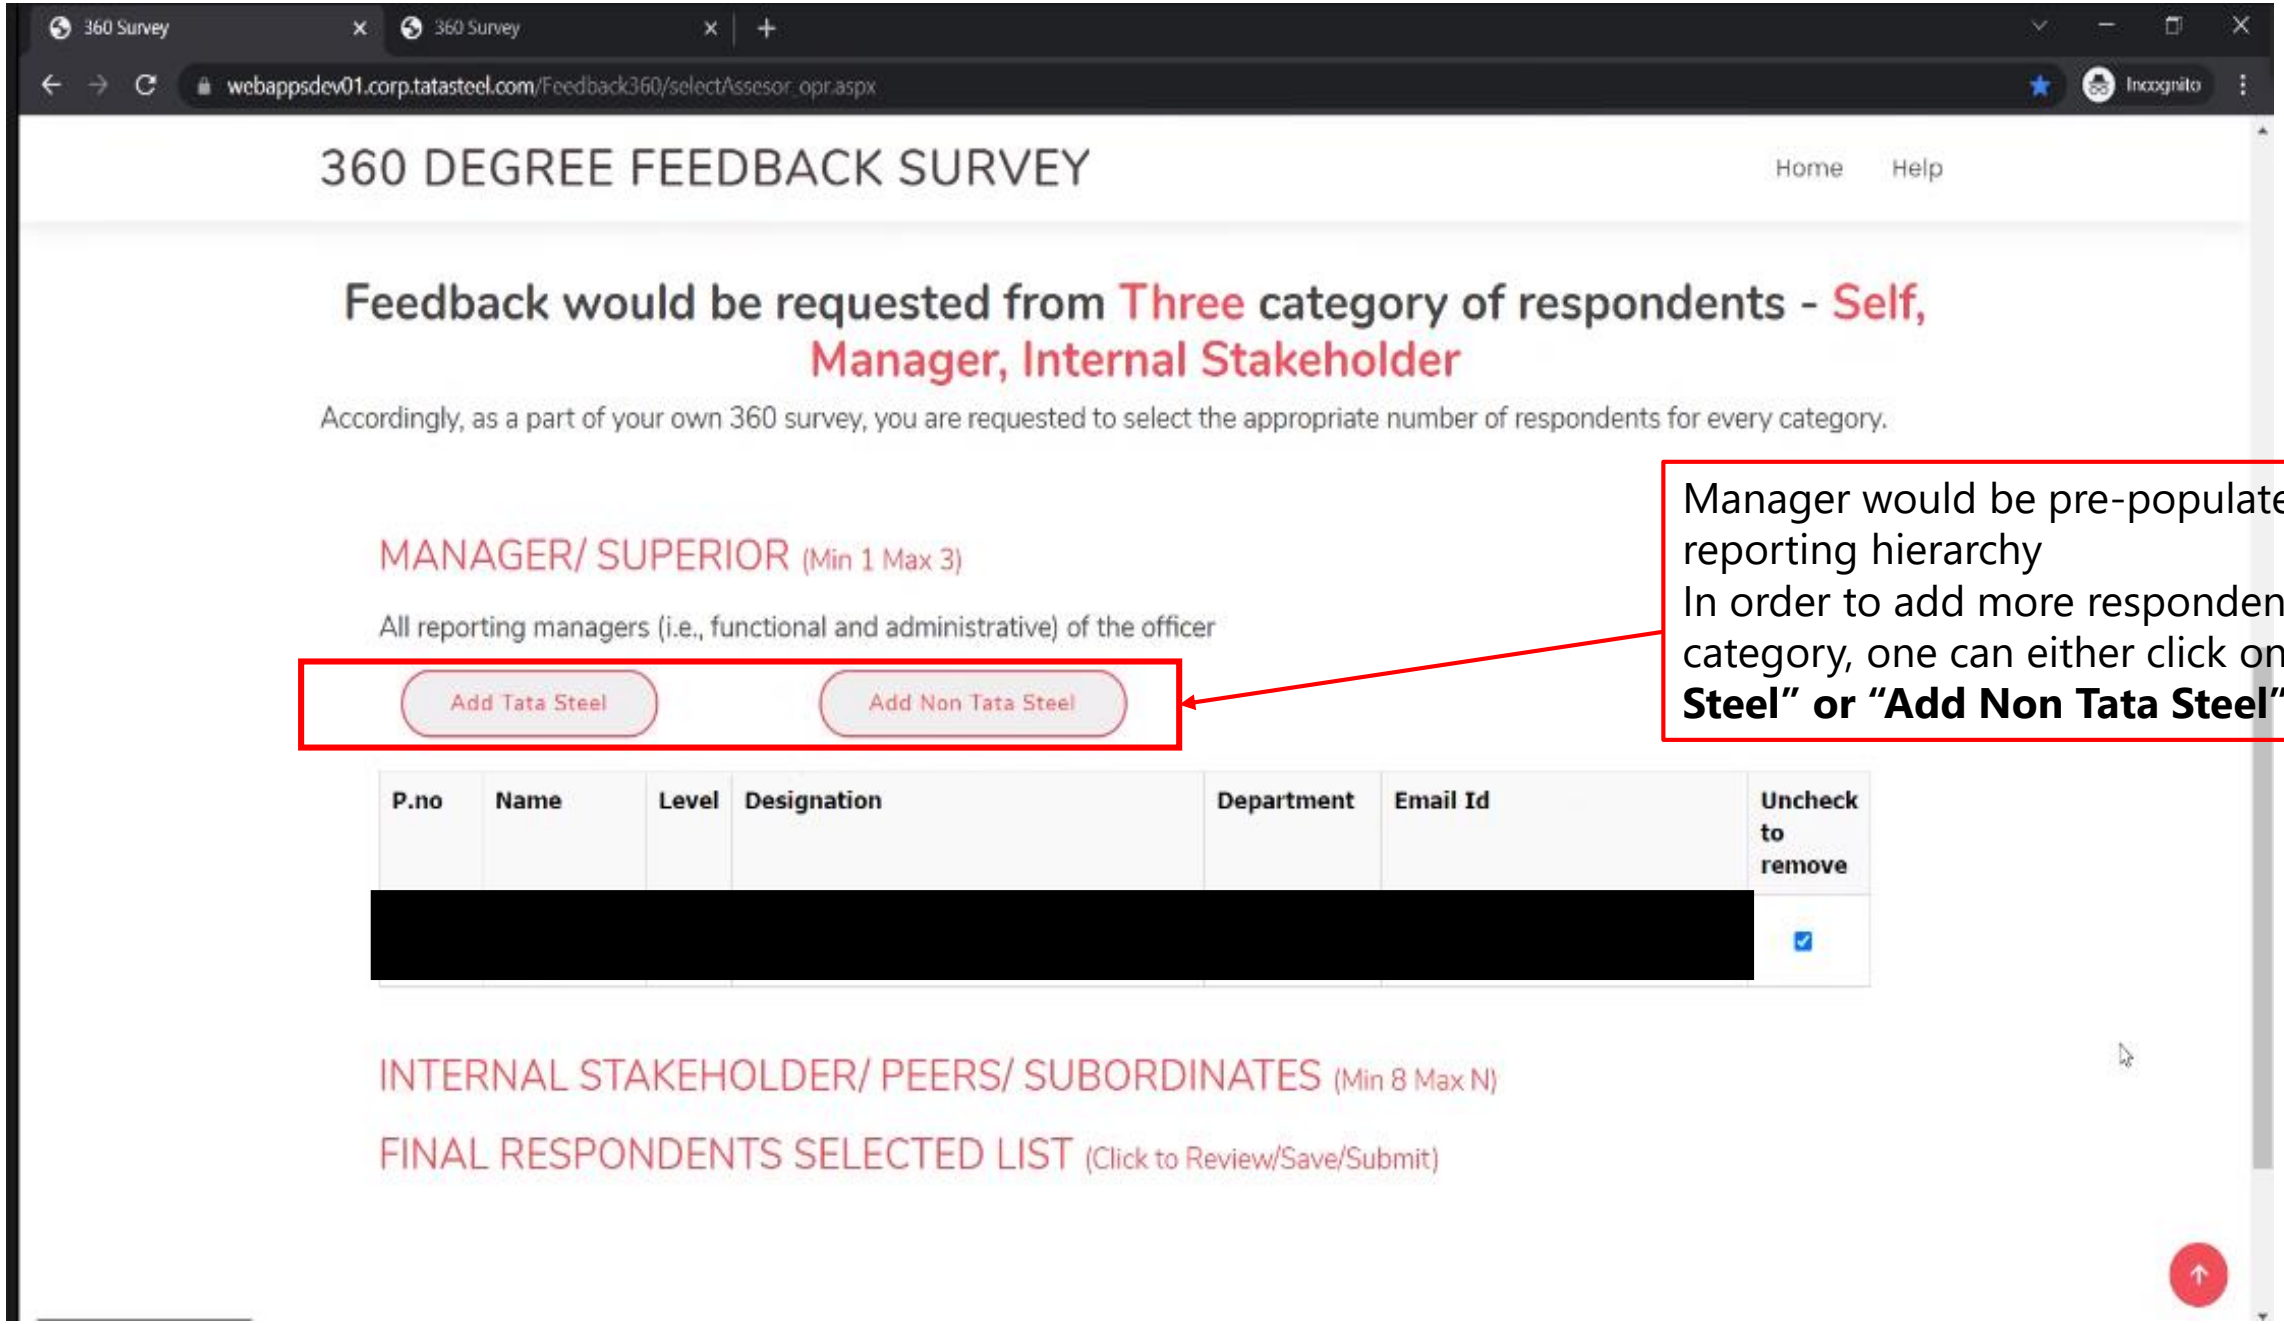


Click on “Select Respondents”

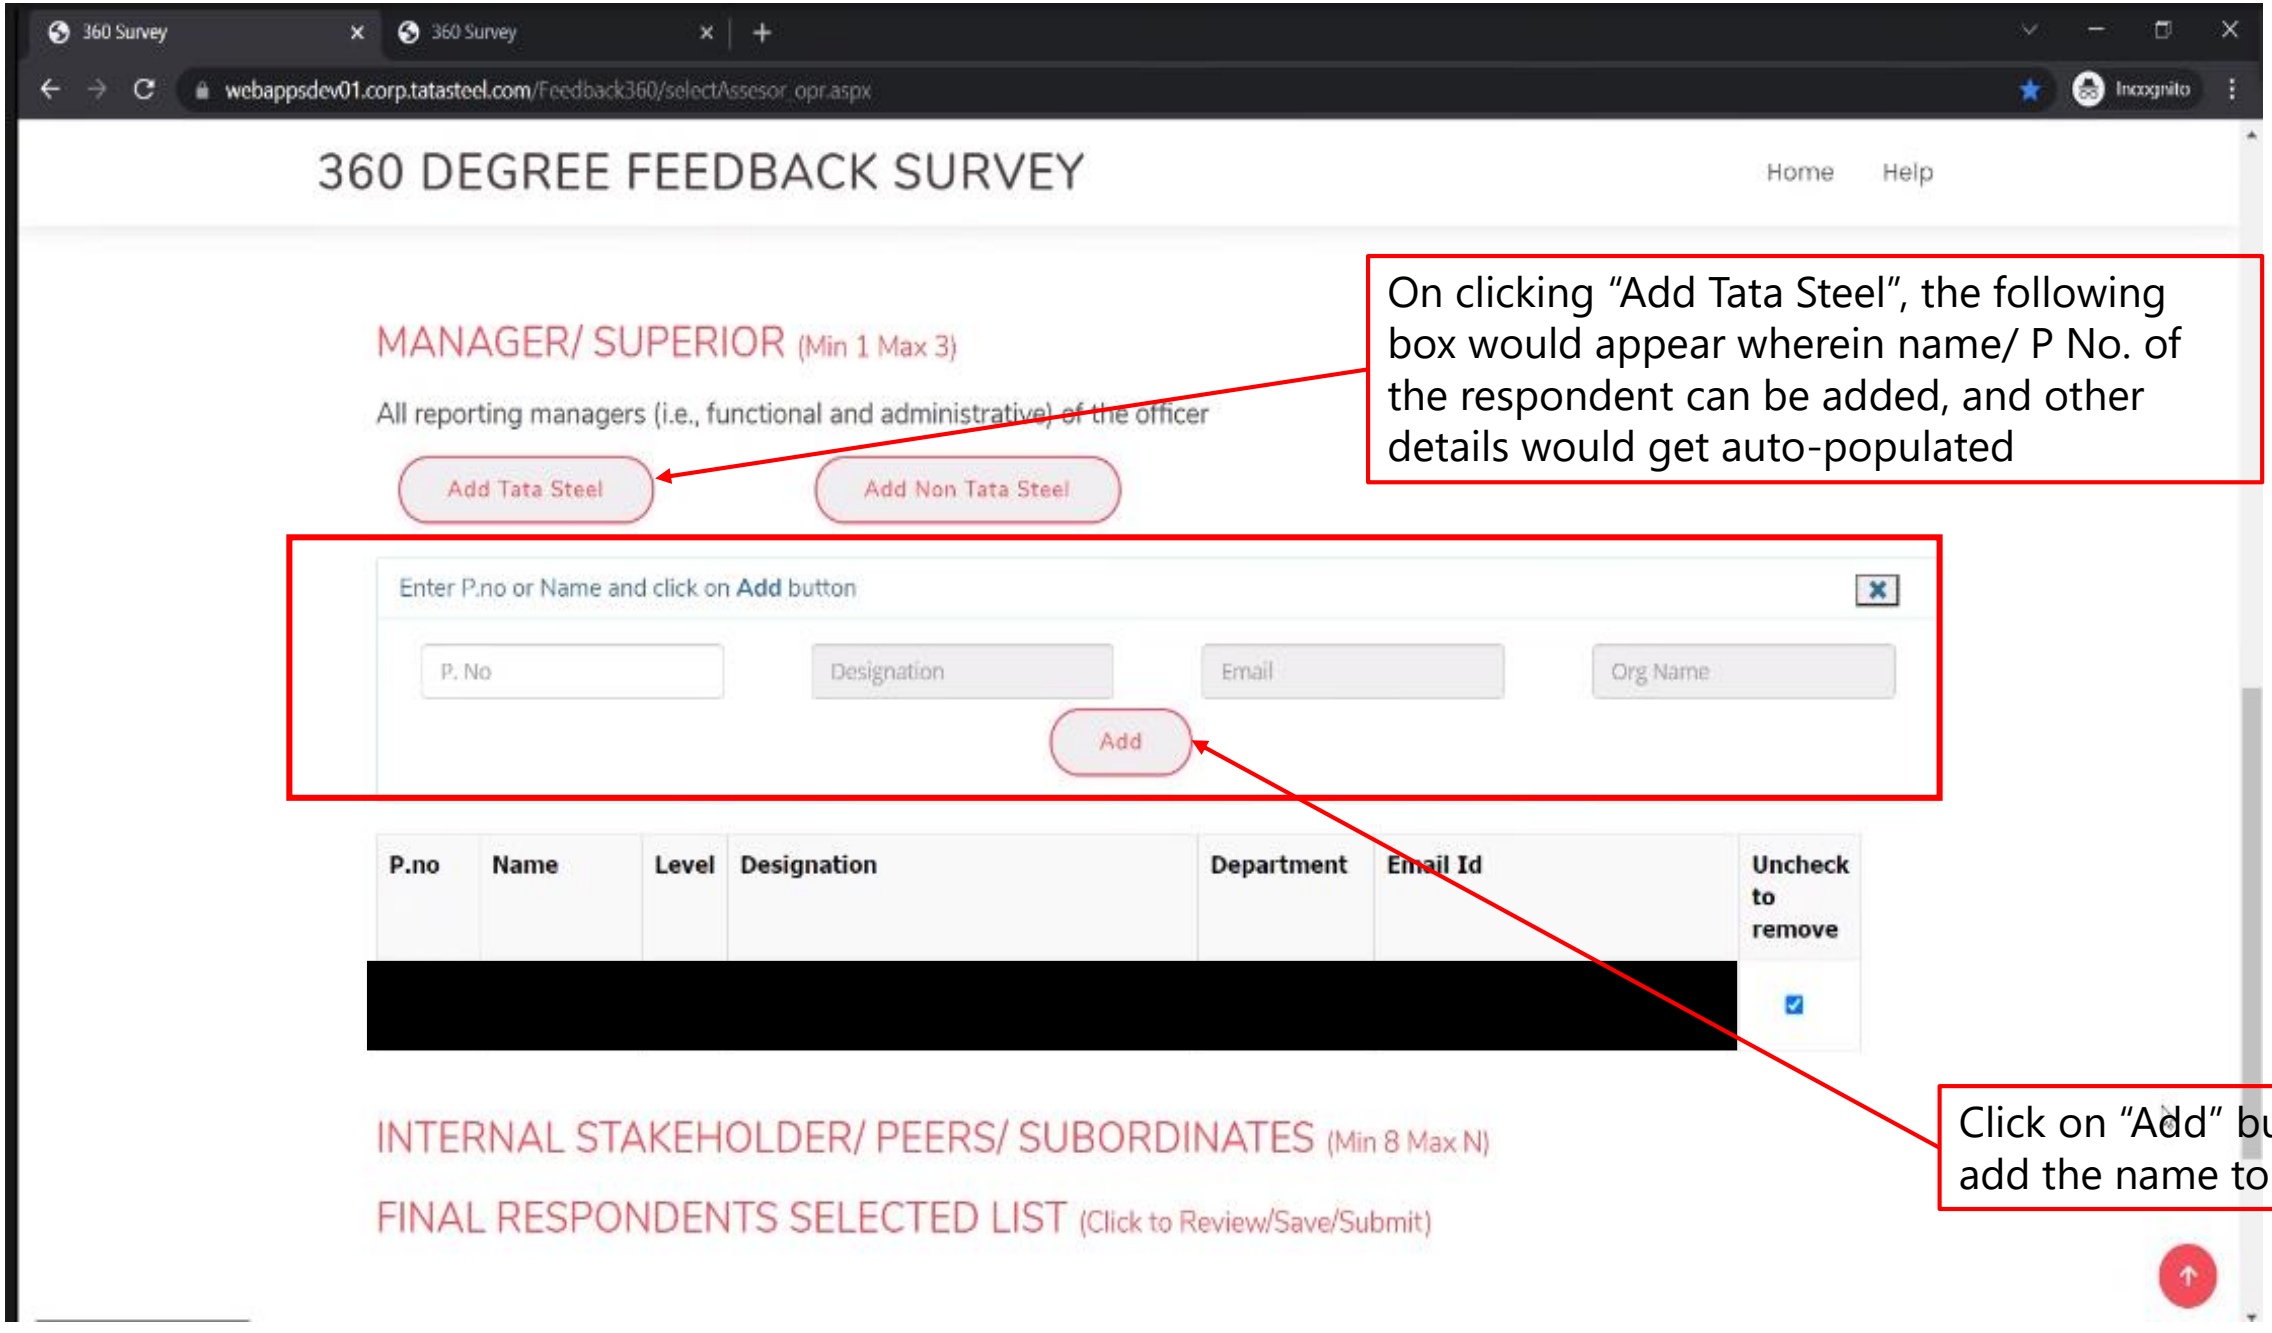
The below screen would appear on clicking “Select Respondents”



***The categories of respondents would be level specific and would vary as per the impact level of the assessee**

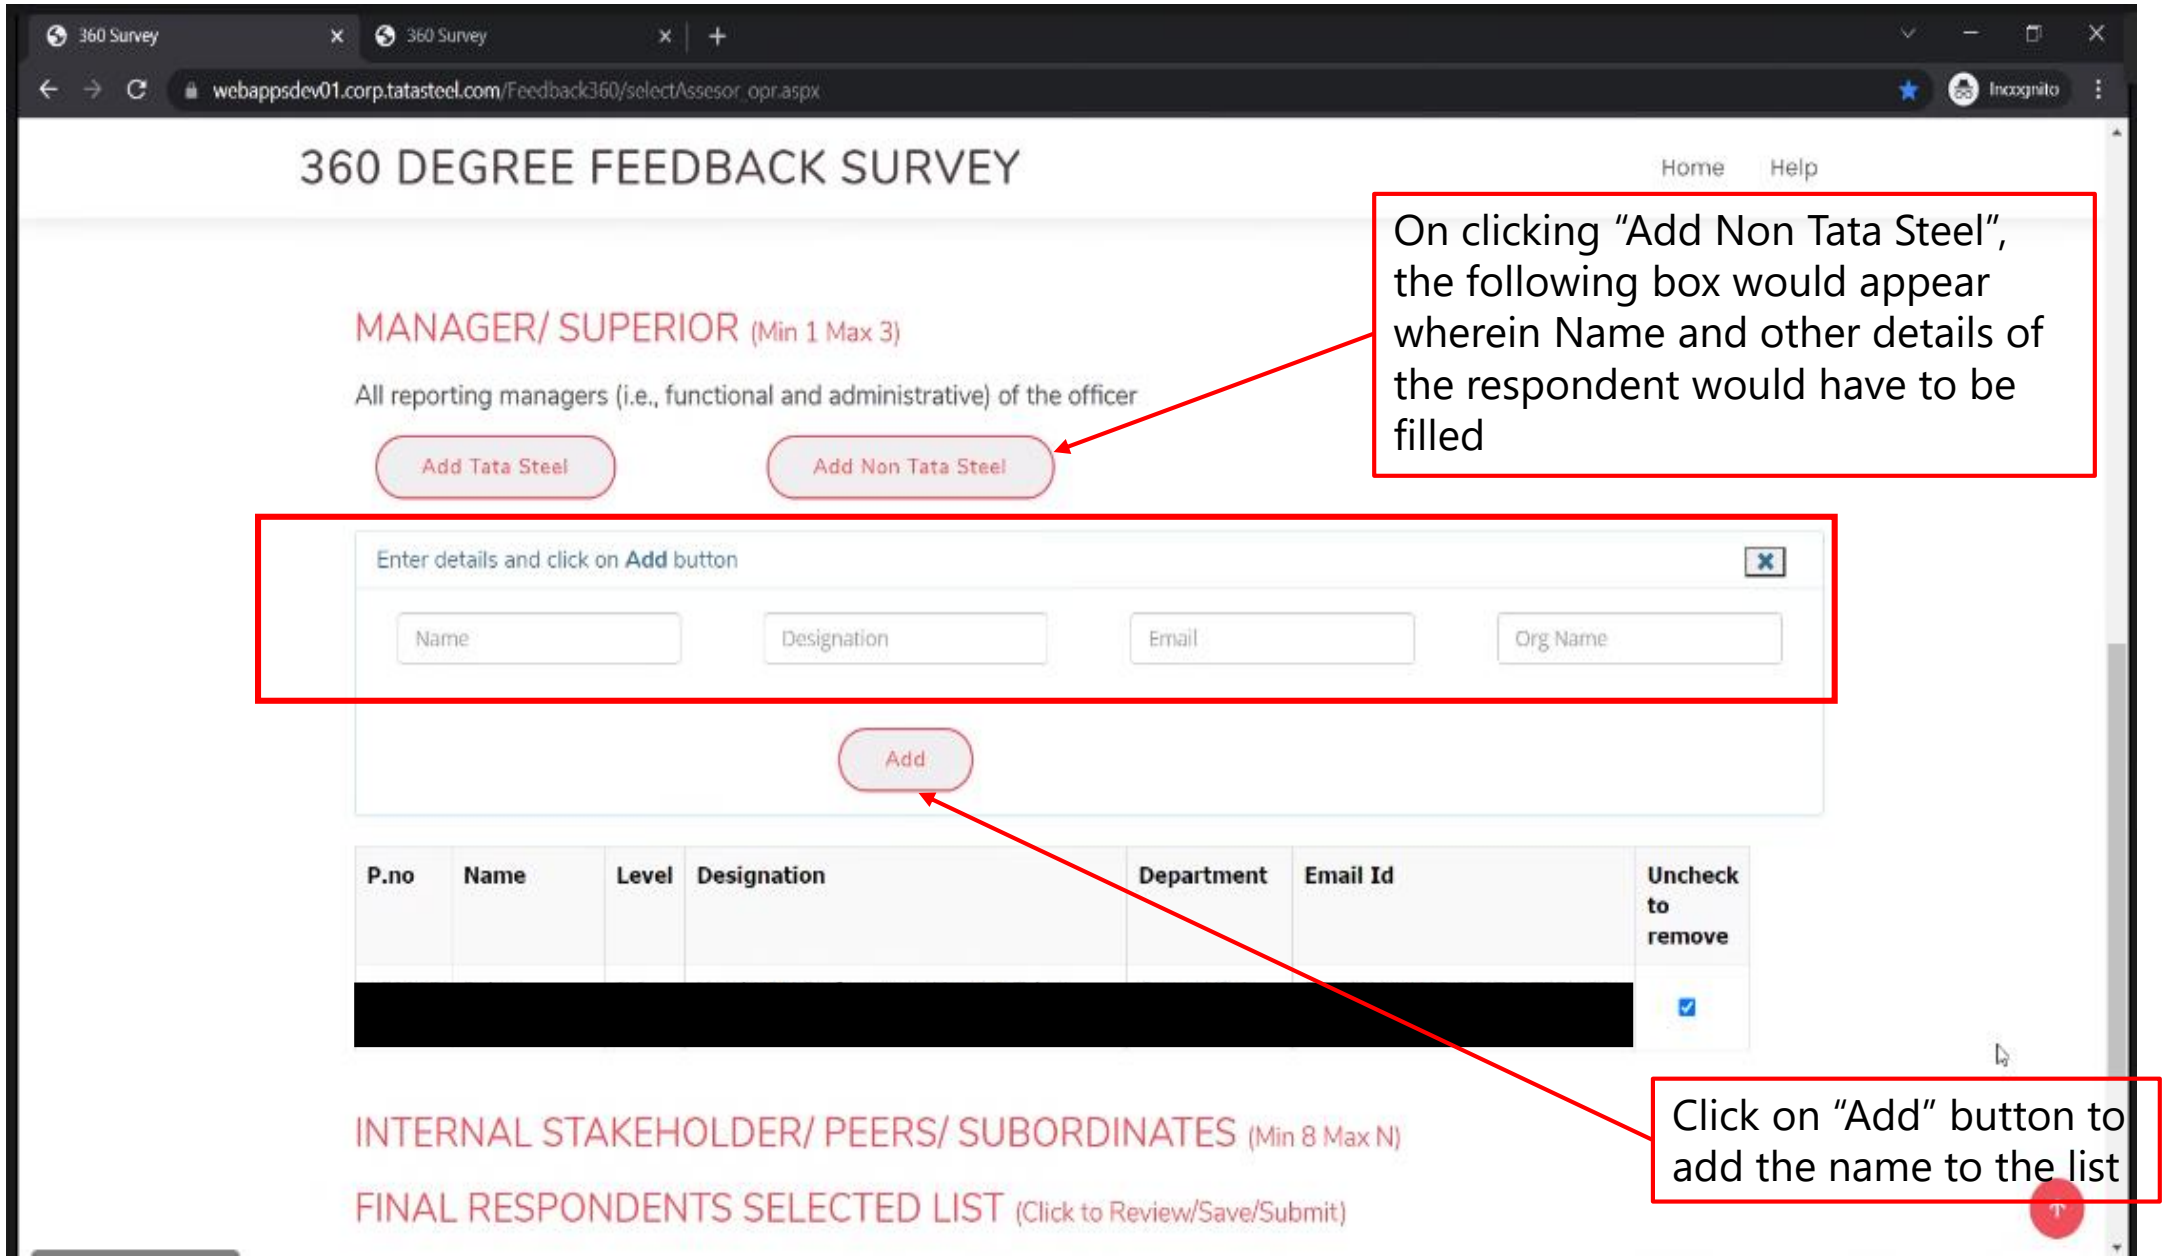


Manager would be pre-populated from reporting hierarchy
In order to add more respondents to this category, one can either click on **"Add Tata Steel" or "Add Non Tata Steel"**



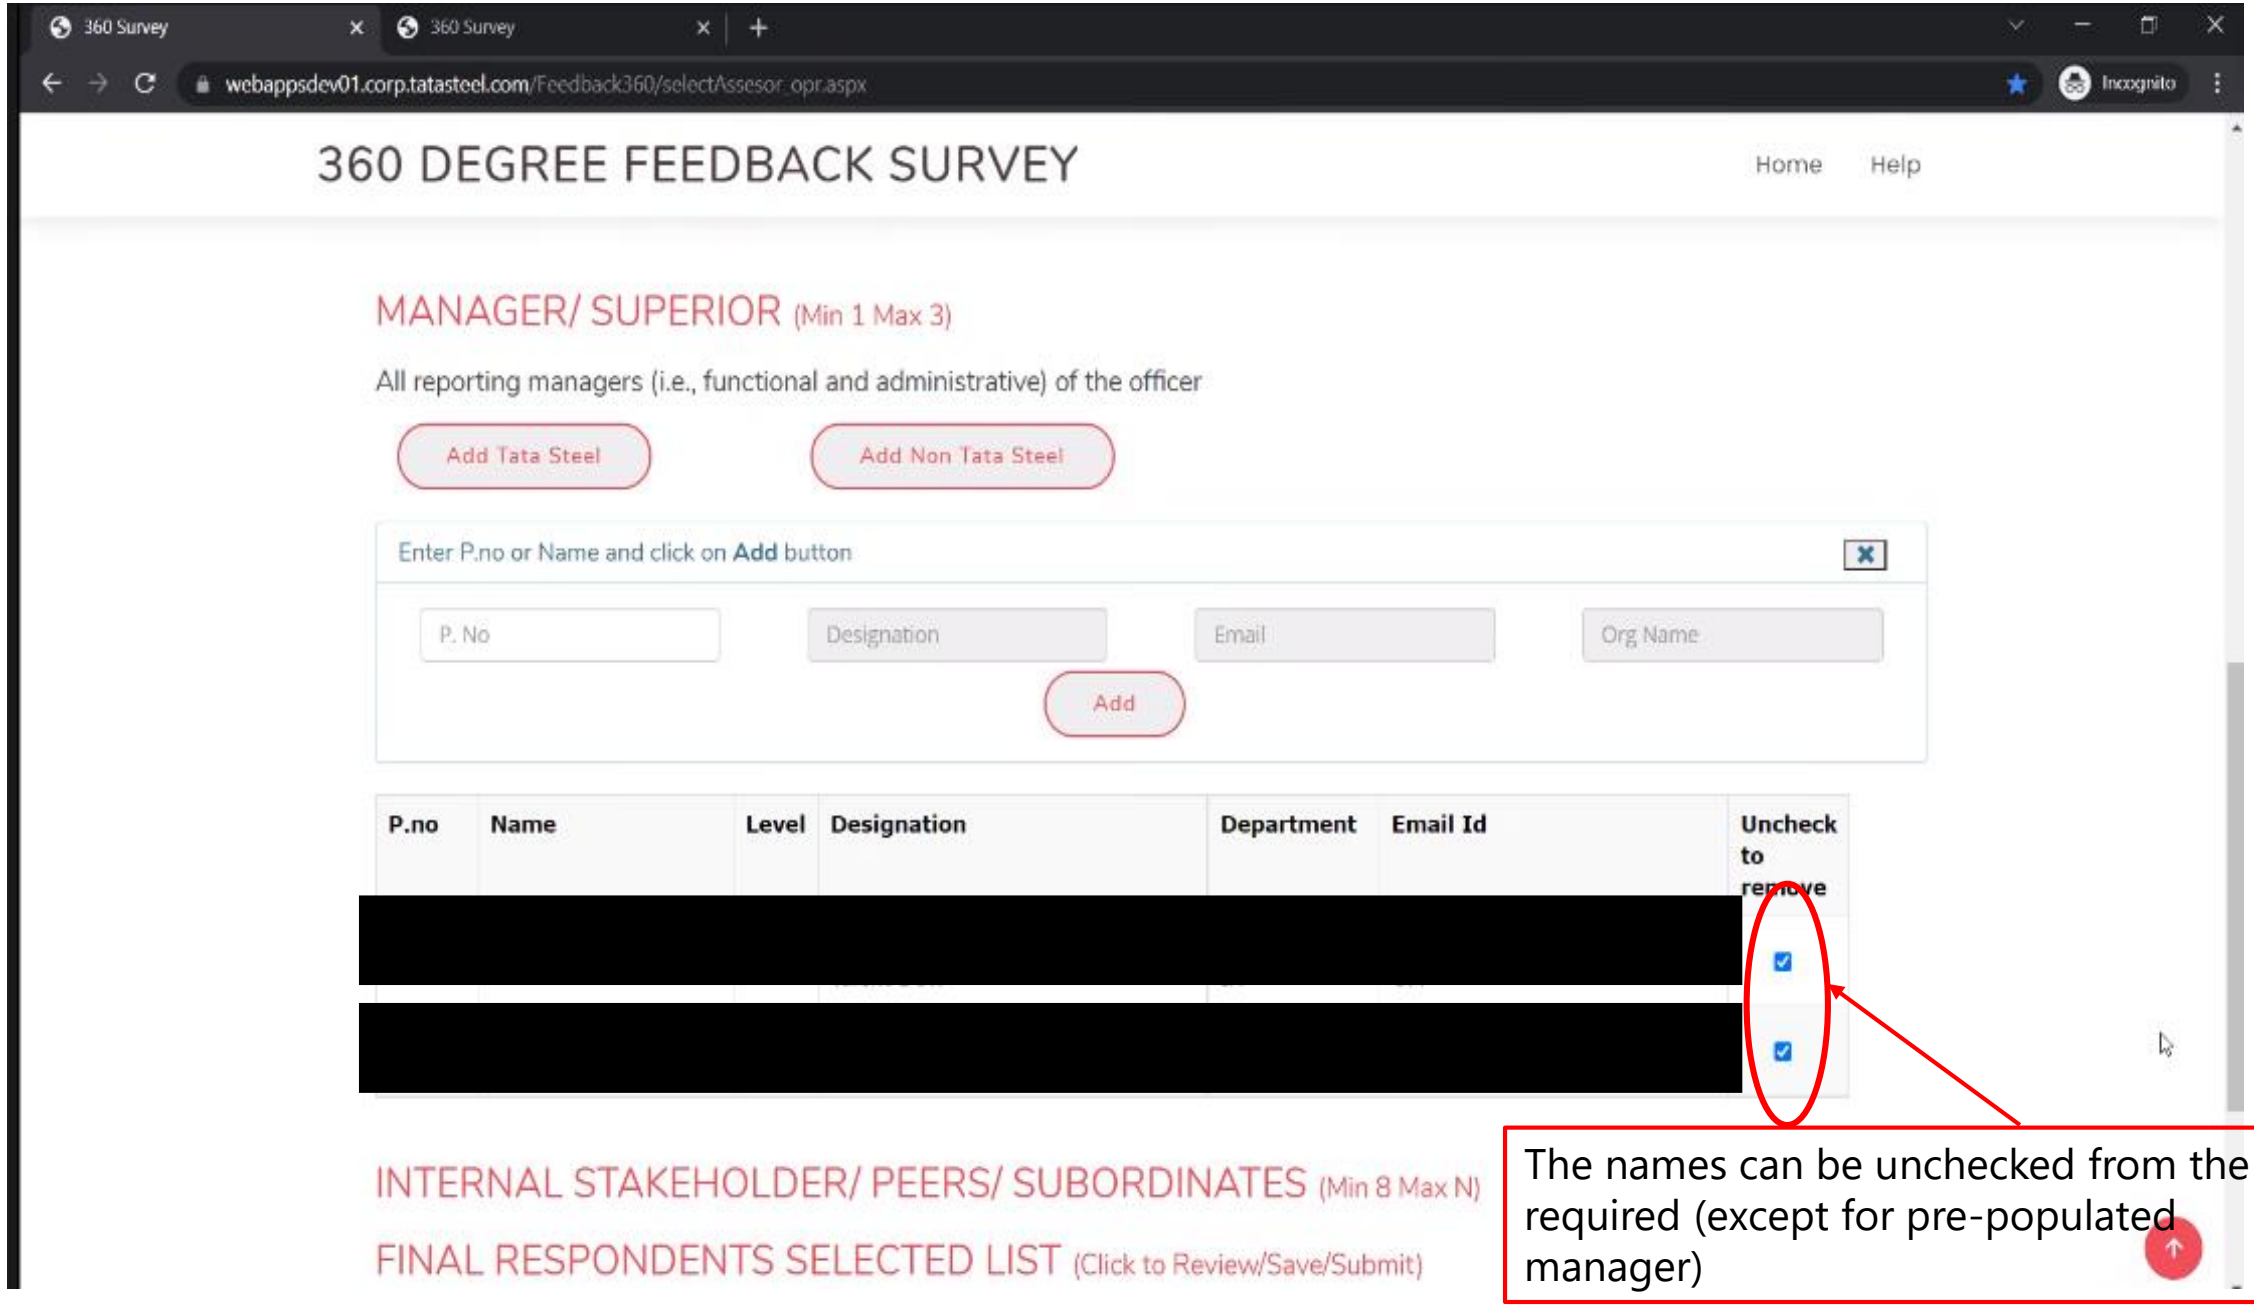
On clicking "Add Tata Steel", the following box would appear wherein name/ P No. of the respondent can be added, and other details would get auto-populated

Click on "Add" button to add the name to the list

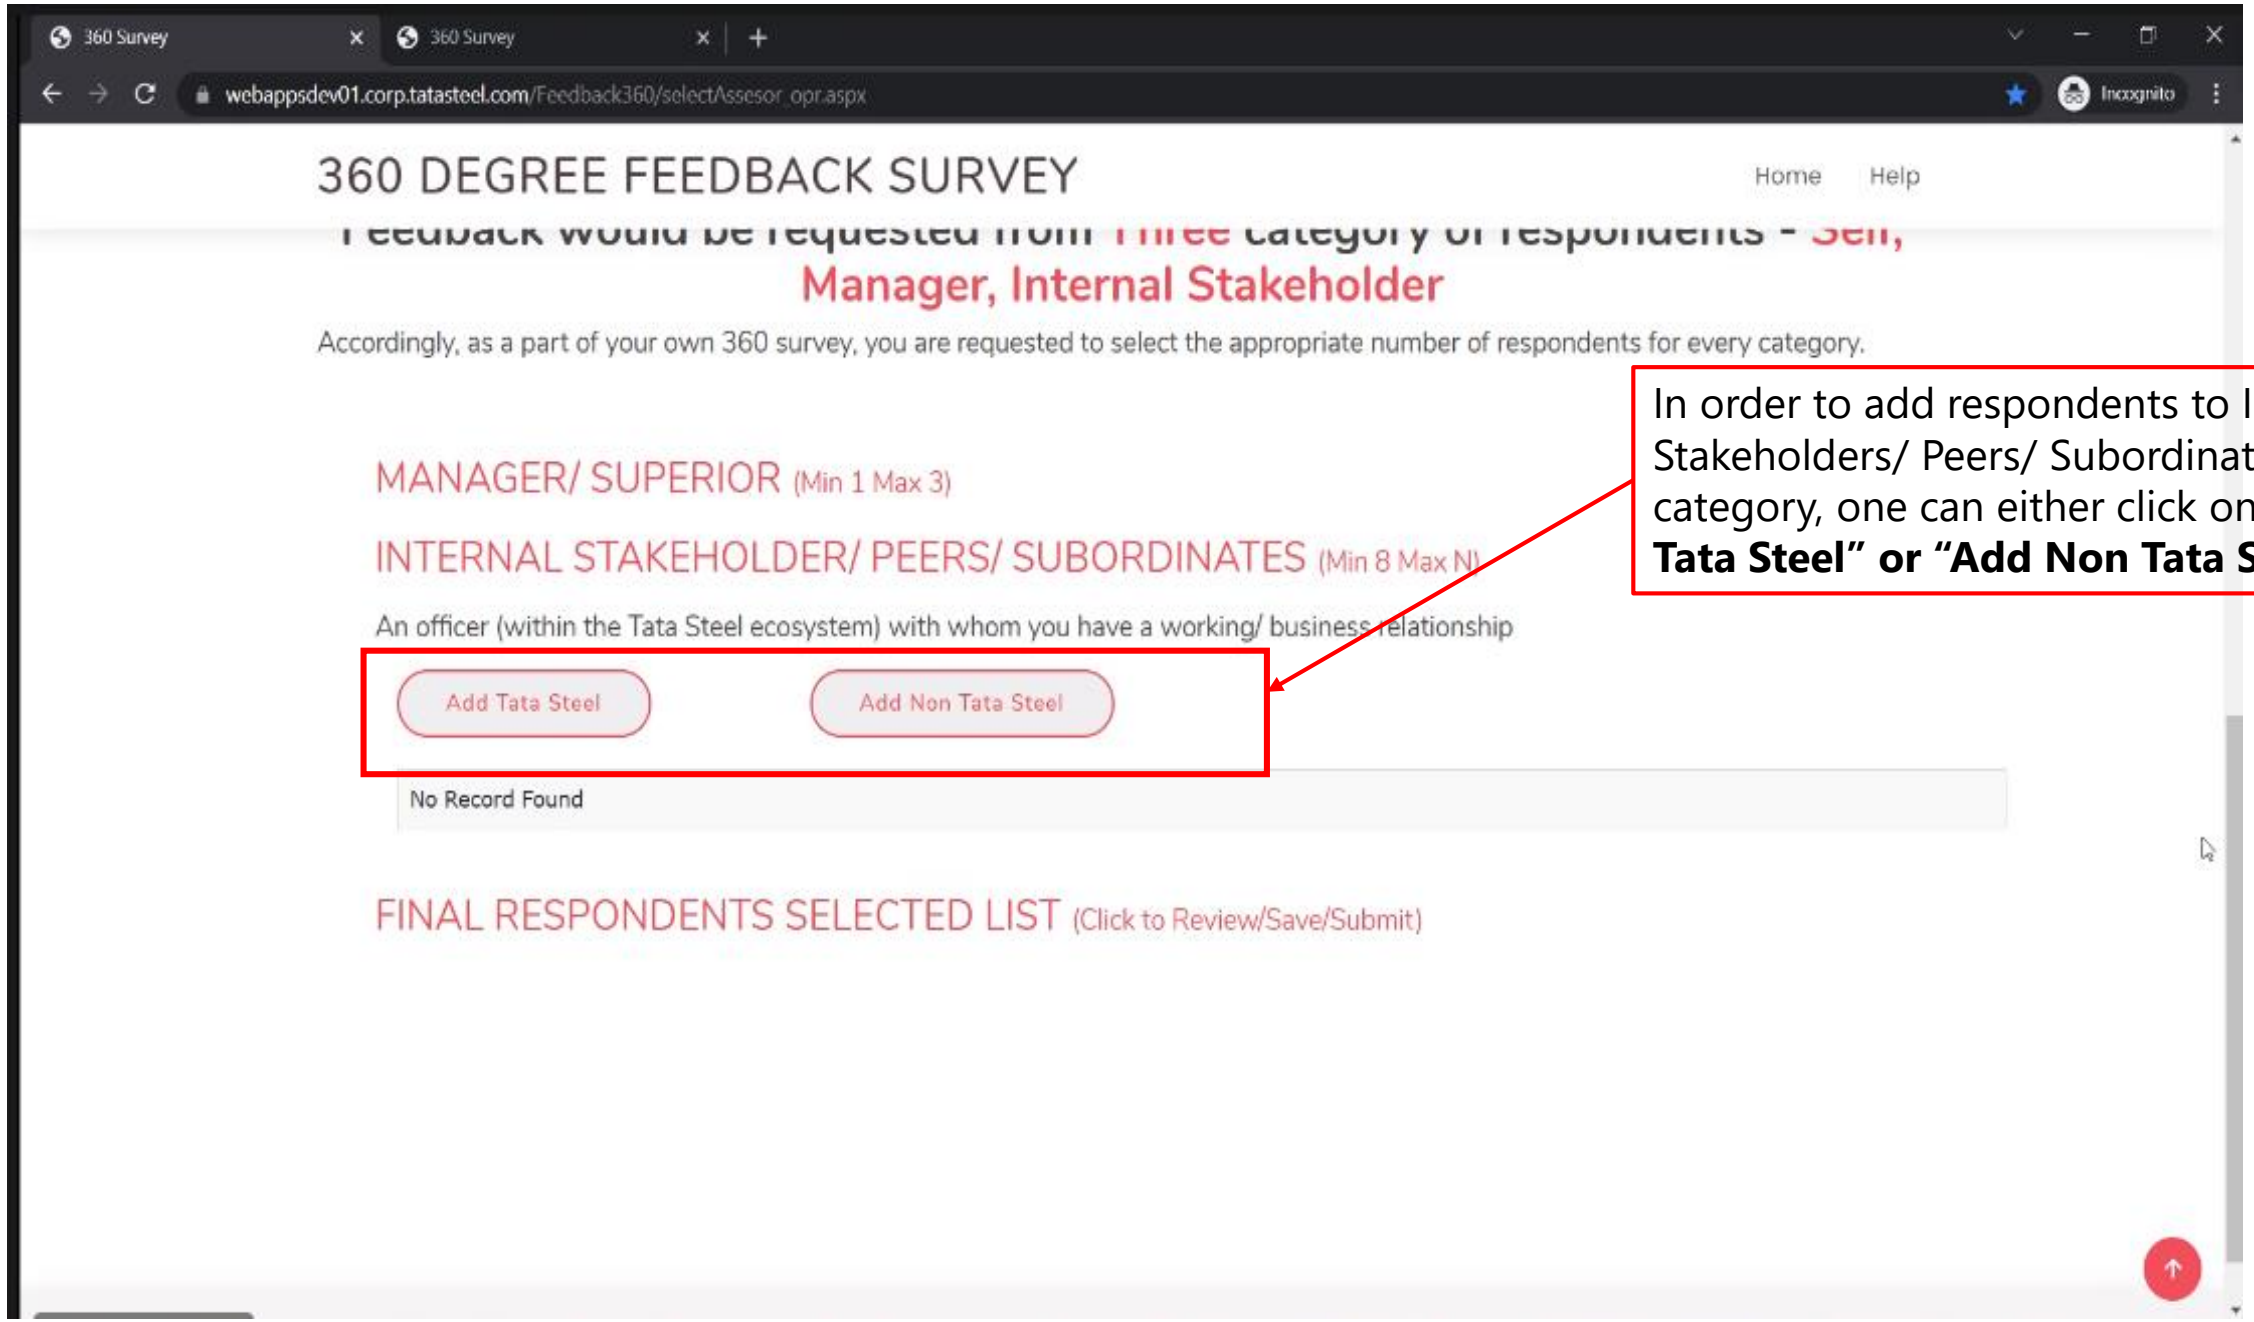


On clicking "Add Non Tata Steel", the following box would appear wherein Name and other details of the respondent would have to be filled

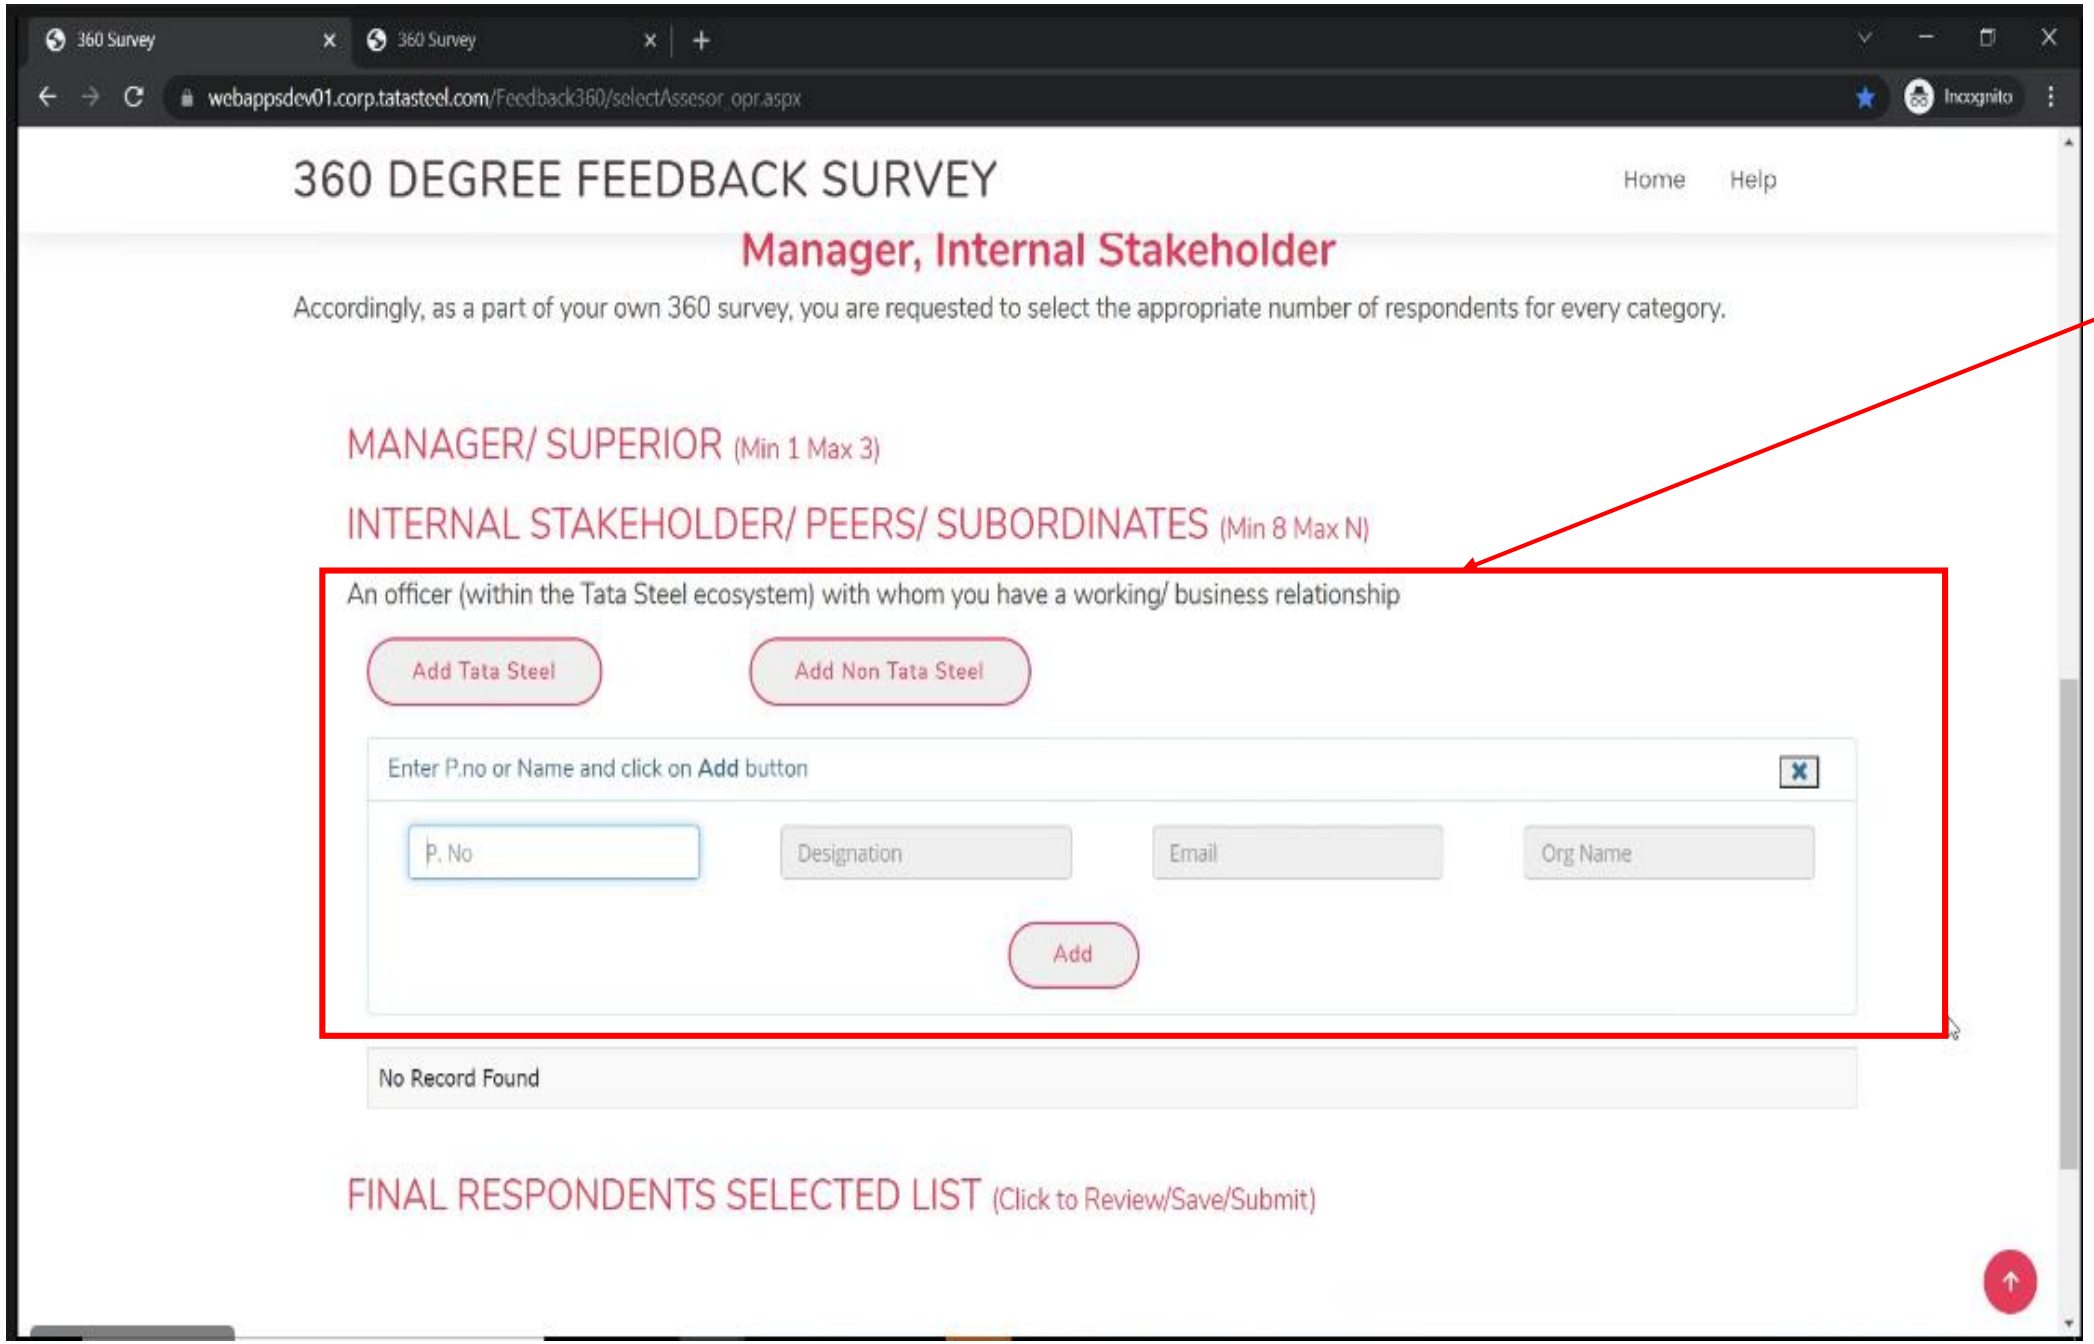
Click on "Add" button to add the name to the list



The names can be unchecked from the list if required (except for pre-populated manager)

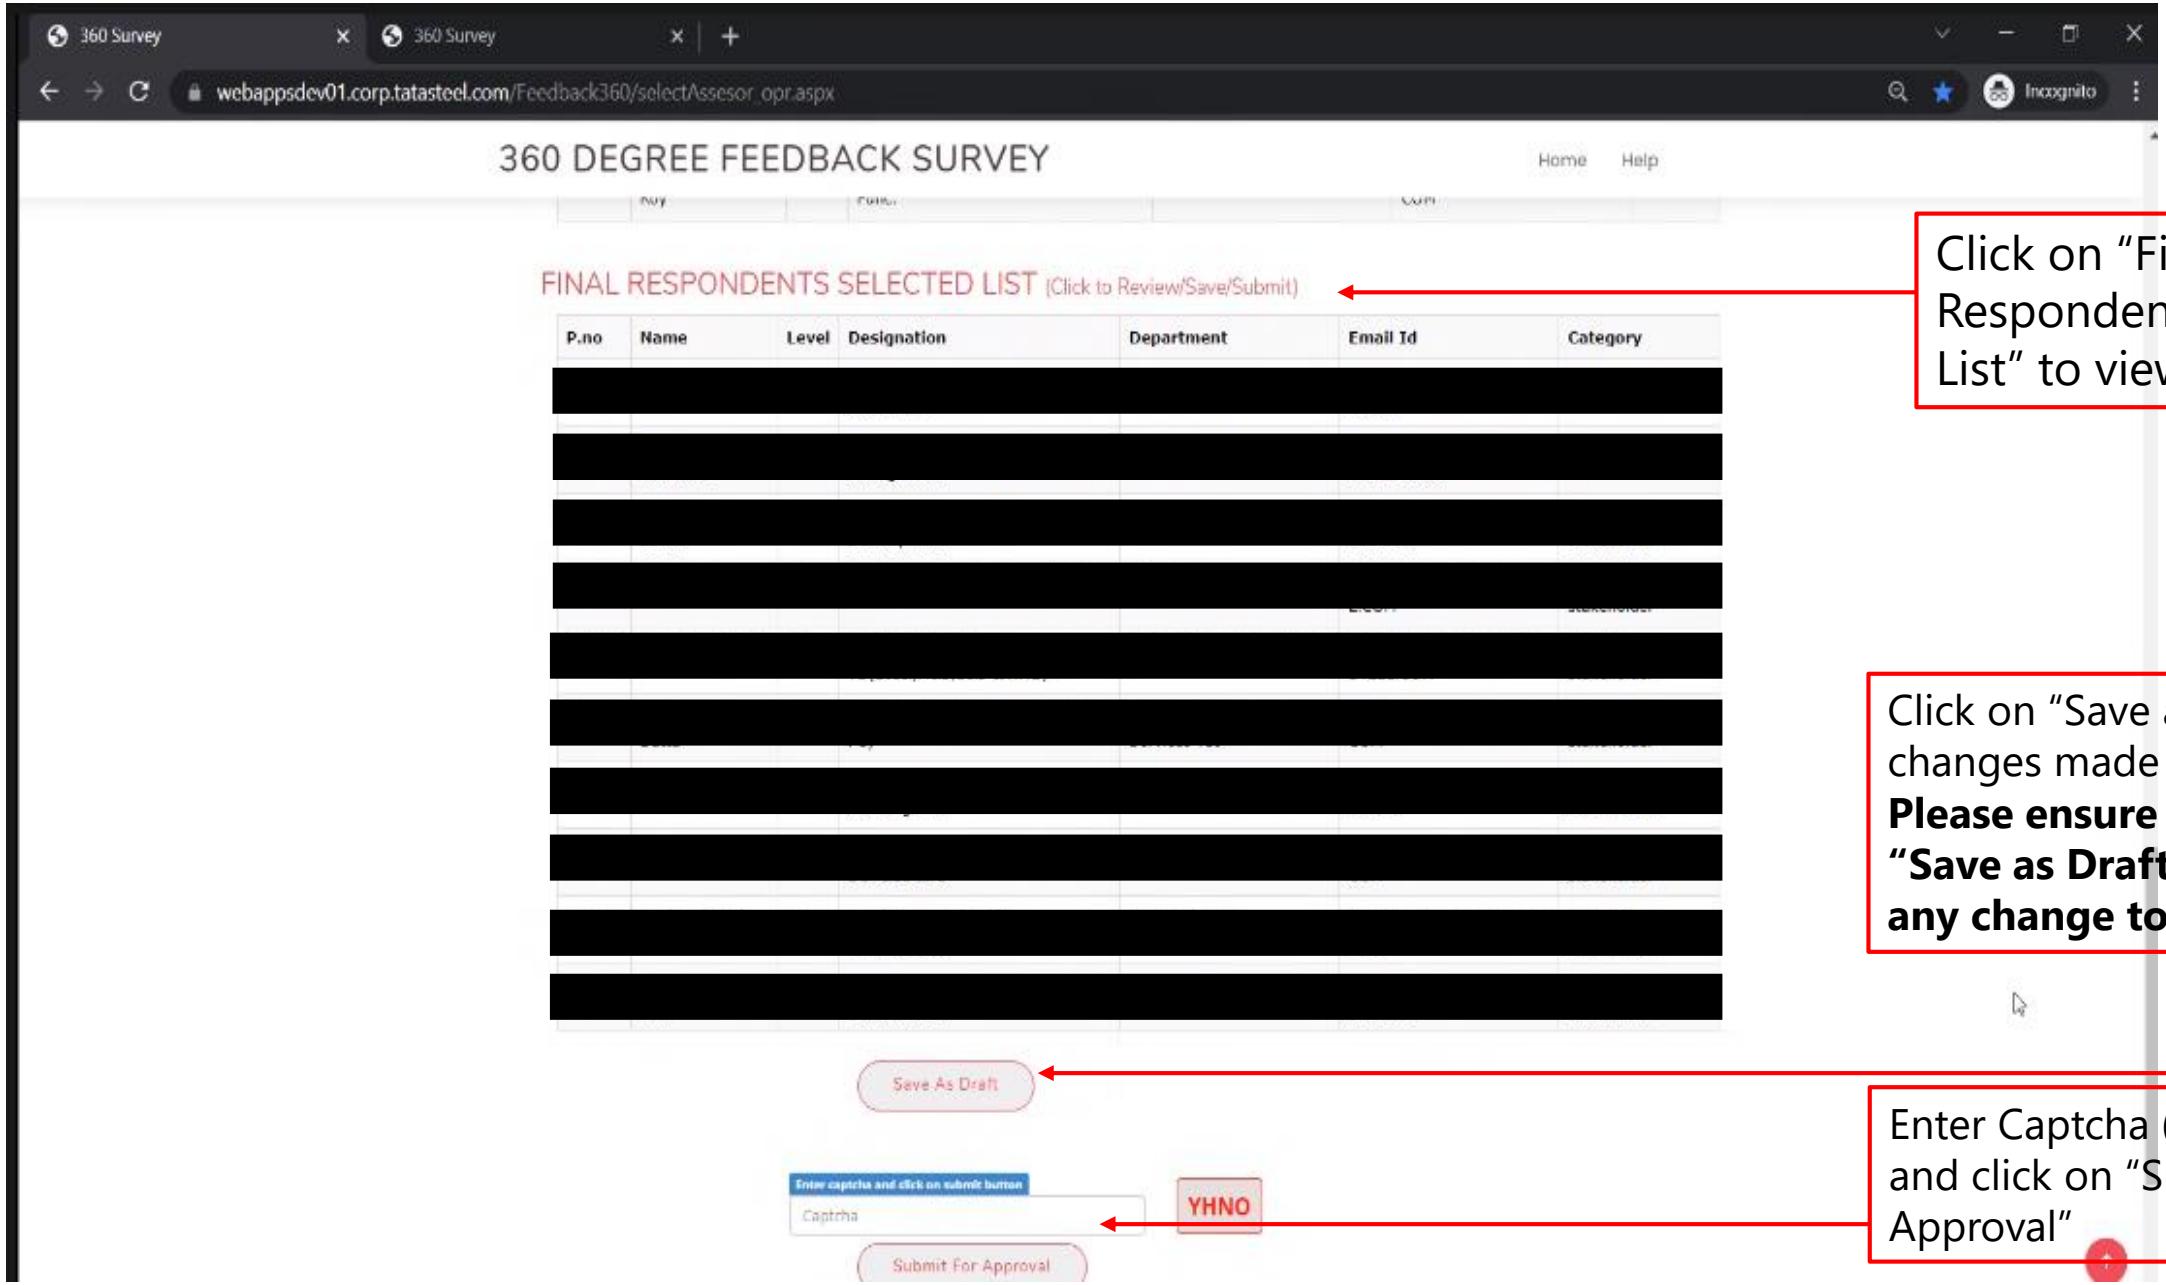


In order to add respondents to Internal Stakeholders/ Peers/ Subordinates category, one can either click on **"Add Tata Steel" or "Add Non Tata Steel"**



On clicking **"Add Tata Steel"**, the following box would appear wherein name/ P No. of the respondent can be added, the other details would get auto-populated.

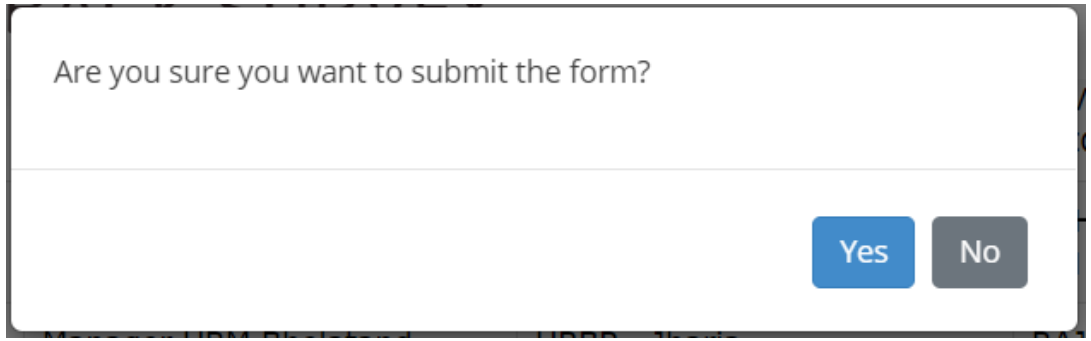
Similarly, upon clicking "**Add Non Tata Steel**", name and other details of the respondent would have to be filled



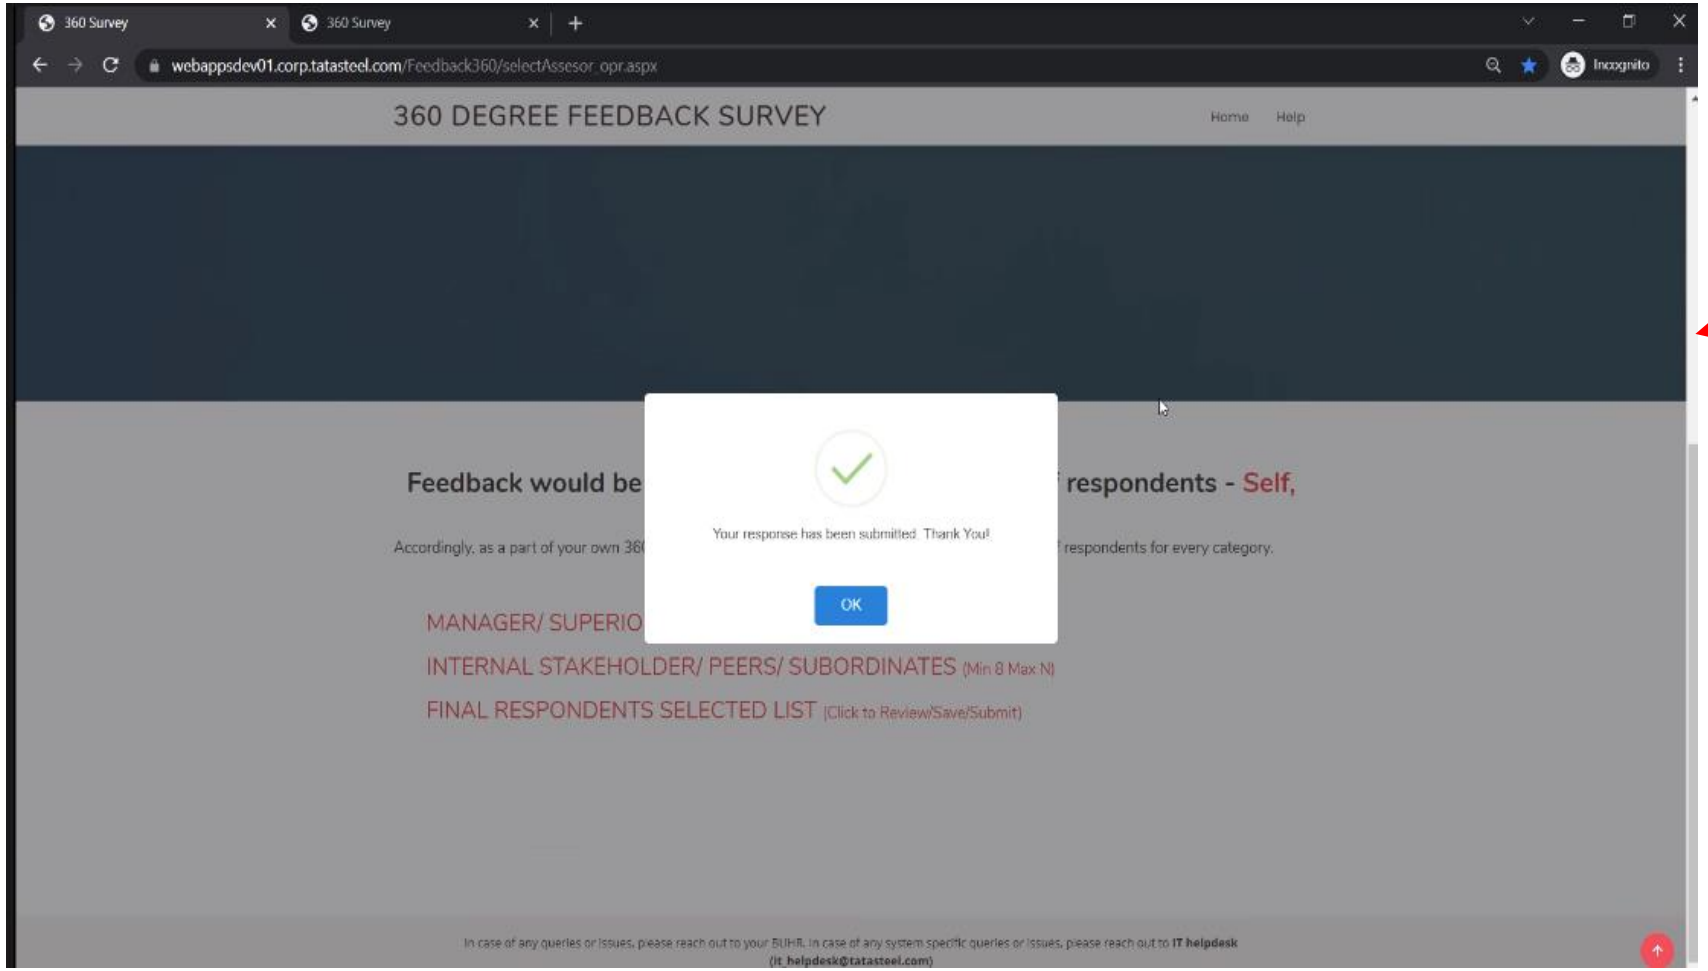
Click on "Final Respondents Selected List" to view the final list

Click on "Save as Draft" to save changes made to the list. **Please ensure to click on "Save as Draft" after making any change to the list**

Enter Captcha (case sensitive) and click on "Submit for Approval"



Confirm your submission after clicking on “Submit for Approval”



Upon successful submission of the respondent list, the following screen would appear

THANK YOU
