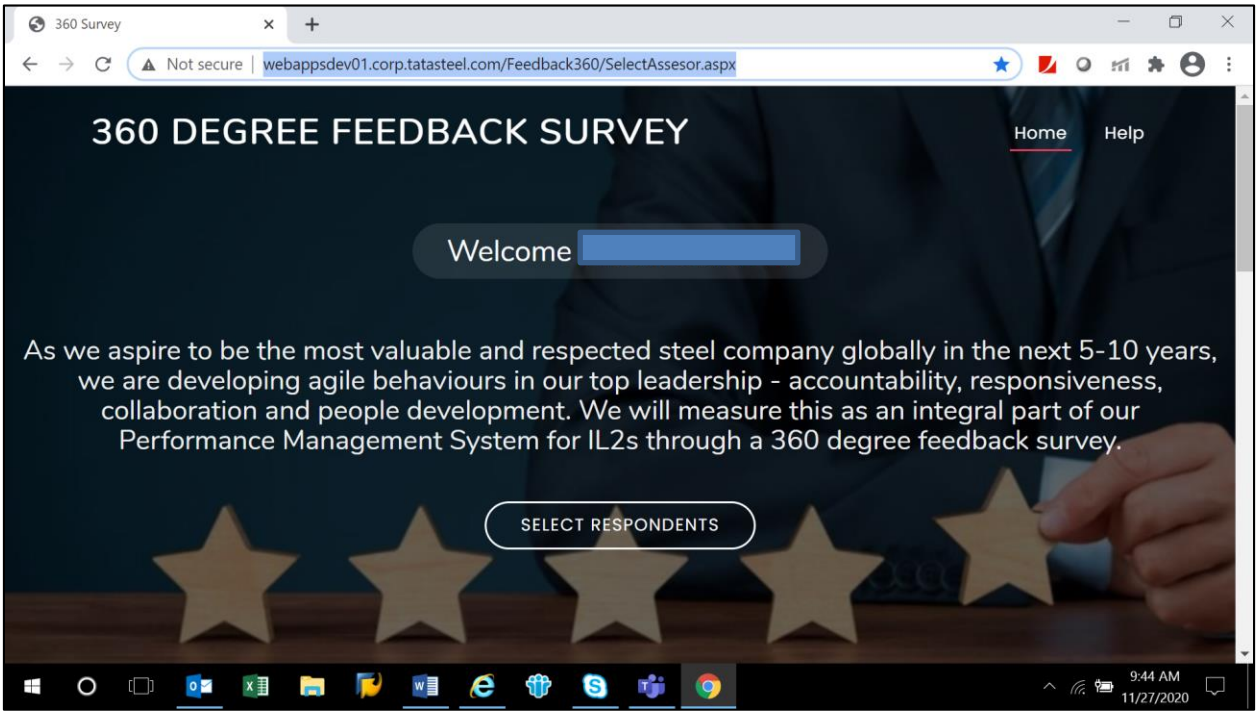
360 DEGREE FEEDBACK SURVEY

USER MANUAL

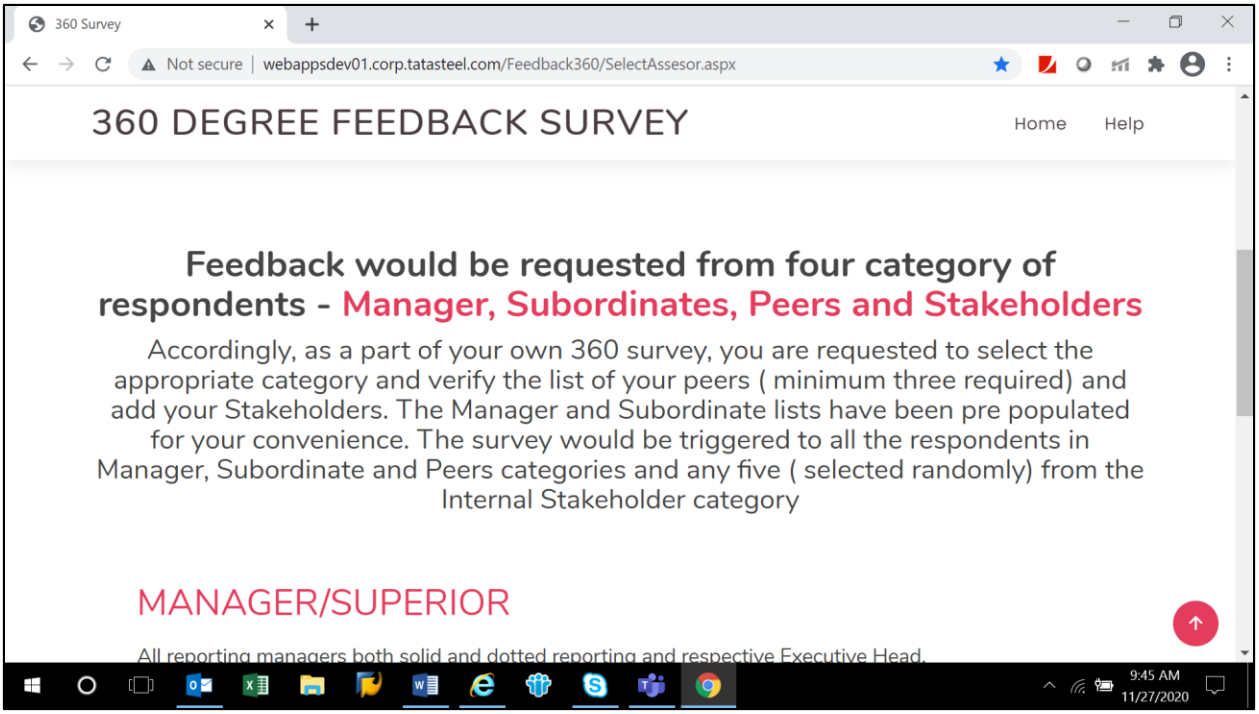
As we aspire to be the most valuable and respected steel company globally in the next 5-10 years, we are developing agile behaviors in our top leadership - accountability, responsiveness, collaboration and people development. We will measure this as an integral part of our Performance Management System for IL2s through a 360-degree feedback survey. Please refer to the below-mentioned steps to navigate the platform.

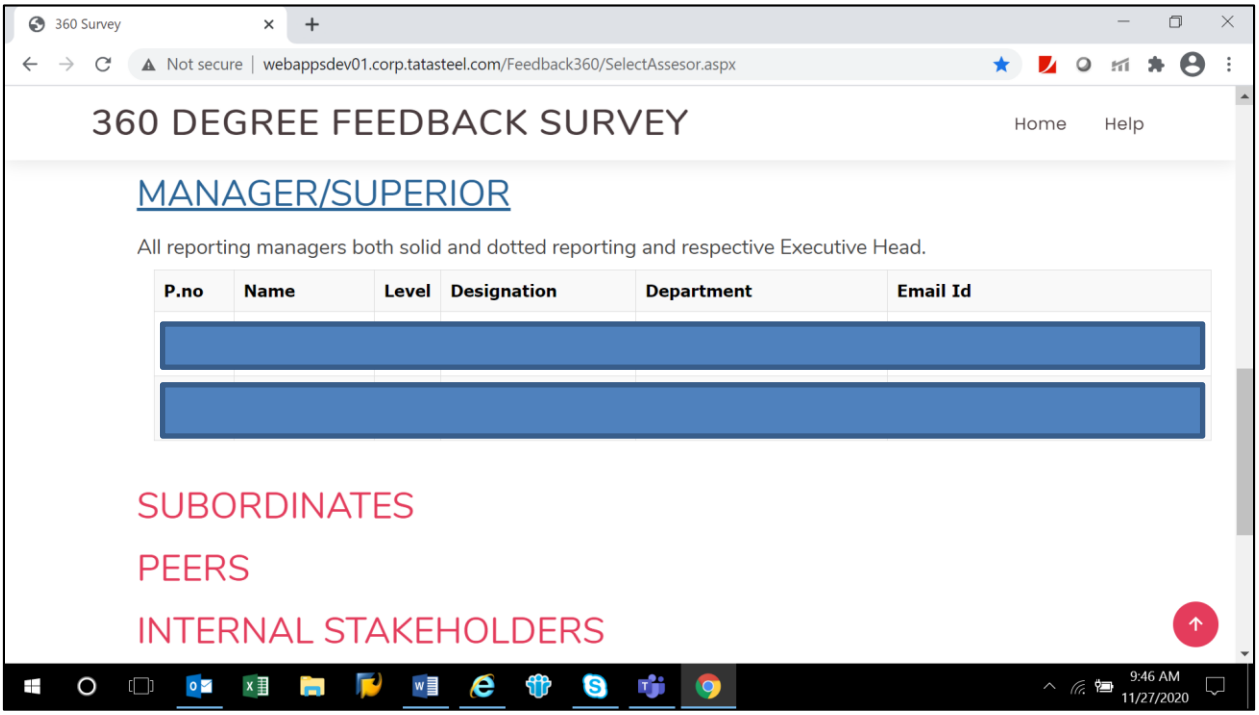
Steps for selection of Respondents who will give 360-degree feedback survey

http://irisapp.corp.tatasteel.com/feedback_360/SelectAssesor.aspx
This link will be shared with the respective officers over mail. It will also be available on Employee Self Help page. It is advisable to open the link in Google Chrome.



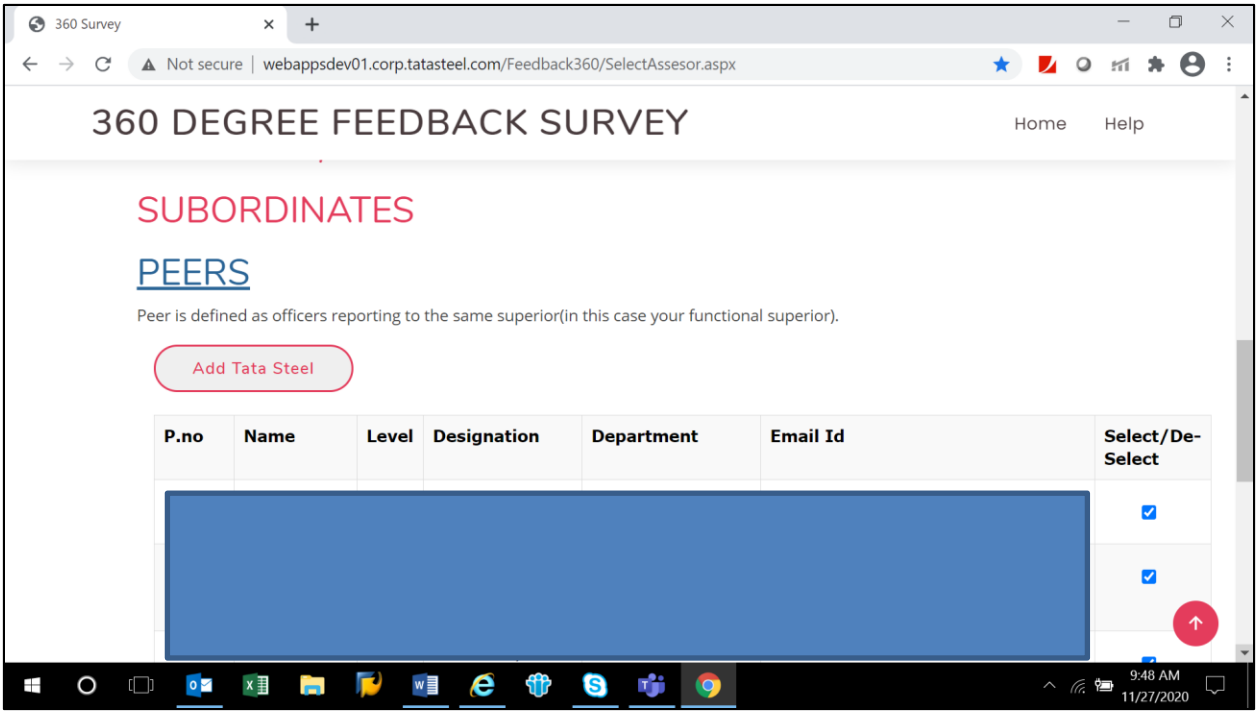
After Clicking on **"SELECT RESPONDENTS"**, the below screen will appear.



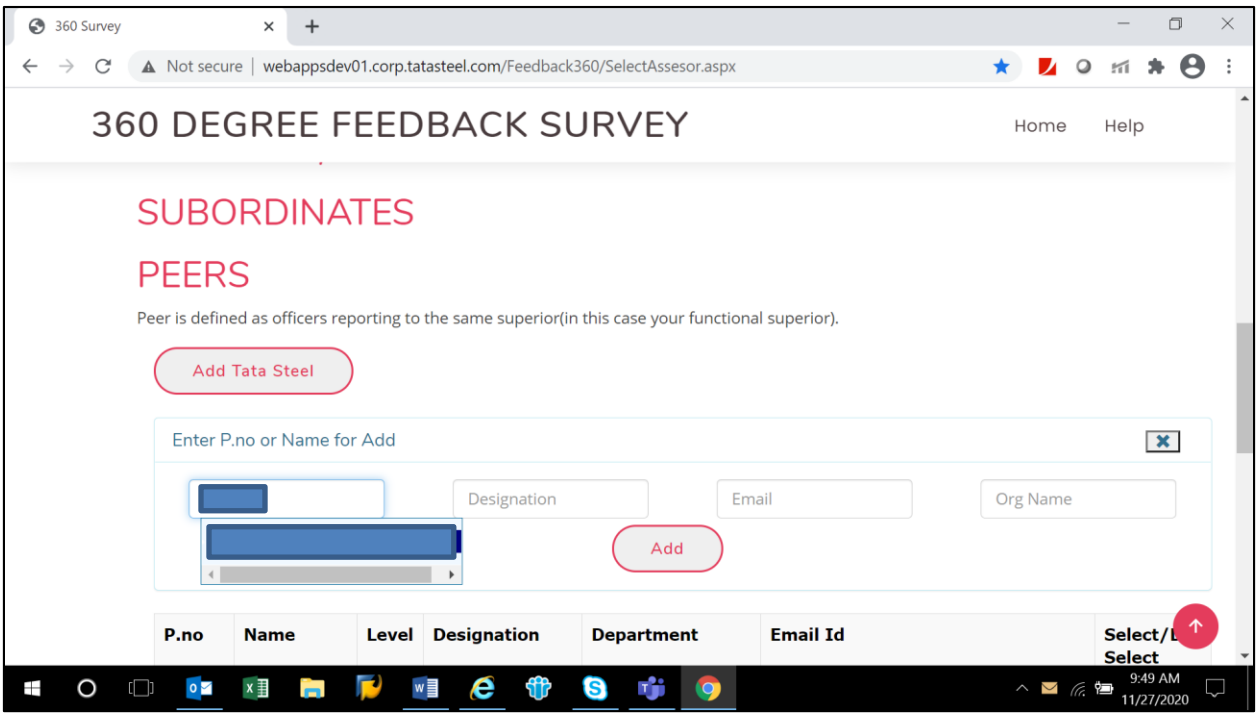


The respondents under **"Manager"** and **"Subordinates"** categories will be auto-populated from the reporting hierarchy.

Peers will also get auto-populated from reporting hierarchy but one can add/ delete the names, if required.

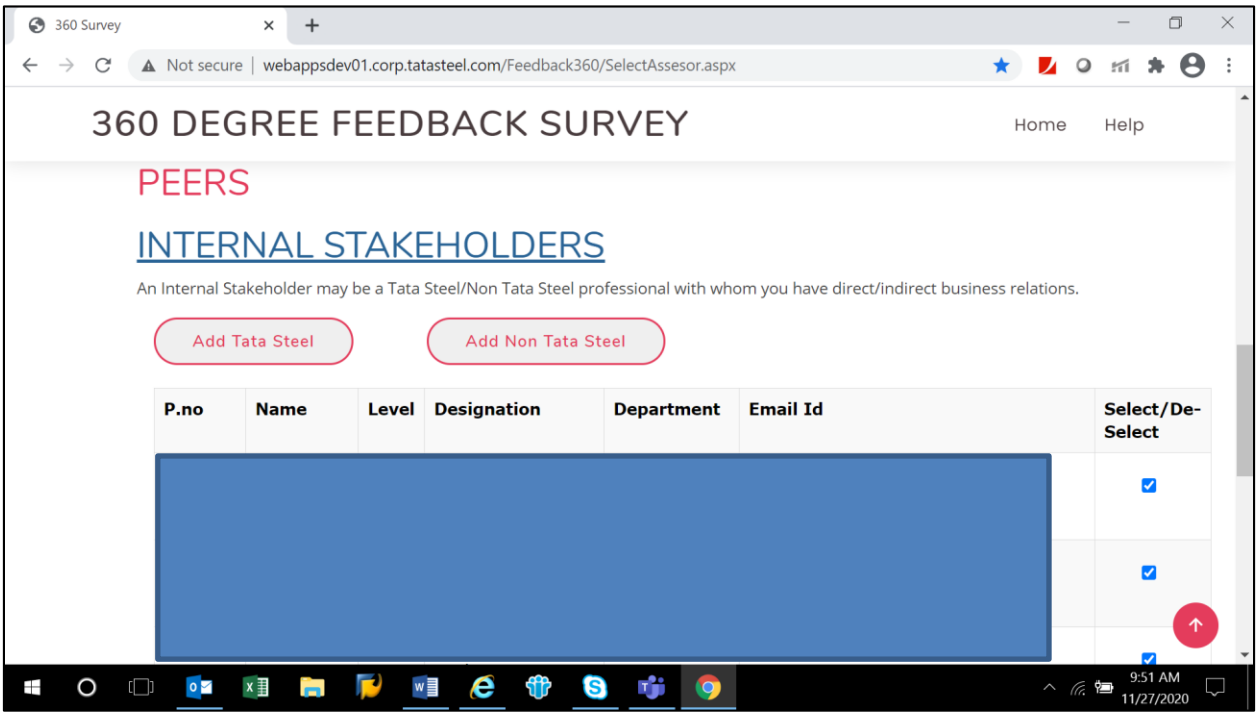


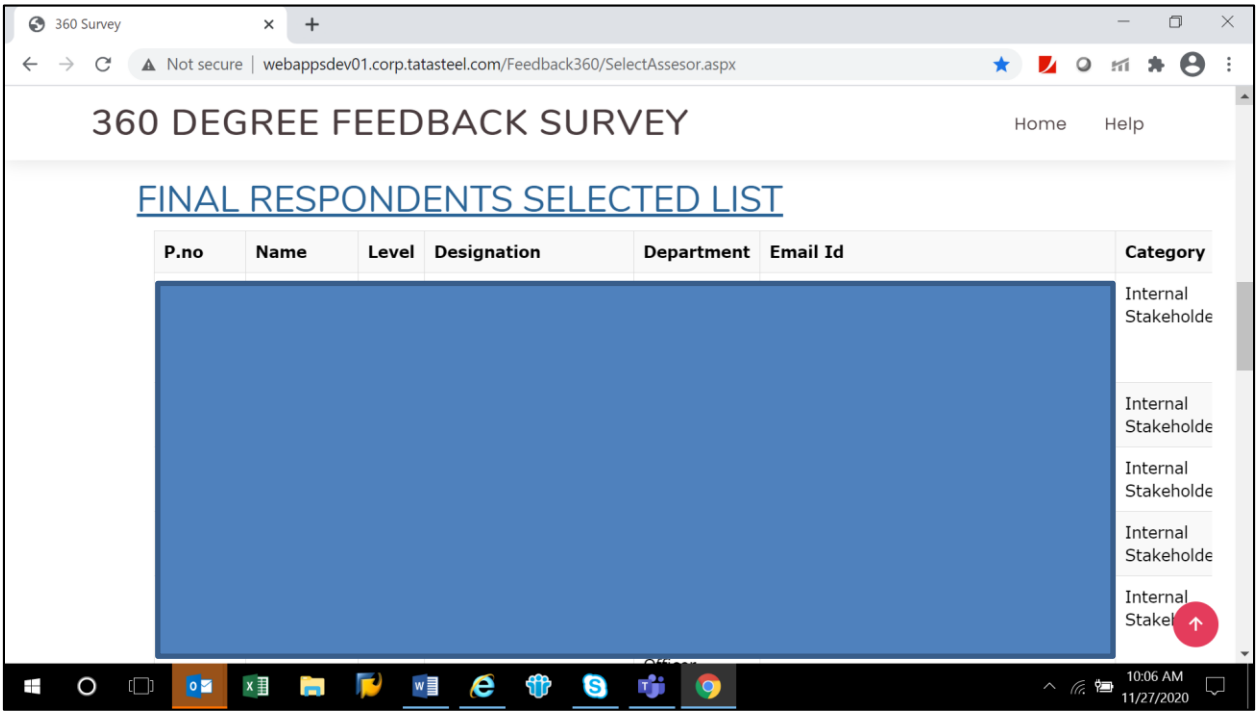
In order to add Peers, one can click on **"Add Tata Steel"**. By giving Personal number/ Name, all the other details will get auto-populated.



Once done, click on **"Add"** button.

Under **Internal Stakeholders**, one can add Tata Steel or Non-Tata Steel persons as respondents for giving feedback. The minimum number of Internal Stakeholders should be 7 and maximum 10.





Under **"Final Respondent Selected List"**, a consolidated list of all the respondents under the four categories will appear. It should be verified before being submitted for Manager's Approval.
